Including USB to USB-C cable & manual. Compatible with Qi Wireless devices (e.g. Apple, Samsung, and others)

> This product supports Apple Wireless Fast Charging, which enables you to charge your iPhone at 7,5W.

All Design Series products incorporate the latest Qi wireless charging technology, allowing you to charge compatible devices at speeds of up to 10W.

The Design Series uses quality materials like aluminium and canvas. The fabric on top of the charging pad is finished with an anti-slip "plus" marker, making sure your smartphone is perfectly positioned and doesn't slide off while charging.

Simply place your smartphone on the surface of the power bank and press the button on the side to start charging. You don't even have to remove your protective case, all products are engineered in such a way that they easily charge through covers.*

All Xtorm products have a 2 year warranty in case something goes wrong. We ensure that you will receive a replacement if the product fails within 2 years.

* A metal case has a negative effect on the charging process because Qi wireless charging works by using a system of magnetic induction coils.

Then Accessions has tested the product in a test environment. All a test environment. All statements/declarations made by Telco Accessories about the (operation) of the product at the sade on the results obtained results (statements/declarations cannot be quaranteed, for example in cases of deviating or injudicious use and/or use in a different environment.
