WARNING

Stationary images in video games can “burn” into some television screens and may cause permanent picture damage or mark phosphor of the CRT. Avoid repeated or extended use of video games on large-screen projection televisions. Consult with your TV owner’s manufacturer manual before playing any games.

CAUTION

Before playing video games, be sure to observe and apply the following:

- Take intermittent 15 minute breaks, at least once an hour, when playing for extensive periods at a time.
- Refrain from playing if you are drowsy or fatigued.
- Play in a well-lit room
- Sit or stand at a relatively far distance from the TV when playing video games.

SAFETY

Read carefully before operating your Retro-Bit Super Retro-Cade console

This product has been designed with the highest concern for safety. However, any electrical device, if used improperly, has the potential for causing fire, electrical shock or personal injury. To help ensure accident-free operation, follow these guidelines:

- Observe all warnings, precautions and instructions.
- Stop use and unplug the AC power cord from the electrical outlet immediately if the device functions in an abnormal manner or produces unusual sounds or smells.
- If the Super Retro-Cade console is not working properly after troubleshooting, contact customer support at service@retro-bit.com
- Do not remove the console exterior or disassemble the console. Do not use the console near water.
- Keep the console and all connecting cords and cables out of the reach of children.
- Do not touch the plug of the AC power cord with wet hands.
- Do not touch the console or connected accessories during an electrical storm.
- Do not touch the console or AC adapter for extended periods of time while the console is turned on as extended contact may cause low-temperature burns.
- Do not place the console and connected accessories on the floor or in a place where they may cause persons walking by to trip or stumble.

HEALTH

- Stop Playing and consult a physician if you experience any of the following:
  - Loss of awareness
  - Lightheadedness, nausea or a sensation similar to motion sickness
  - Altered vision
  - Disorientation or confusion
  - Facial muscle twitches
  - Shaking of arms or legs
  - Tired, uncomfortable or aching hands or arms
  - Tired, dry or aching eyes
  - Any unusual physical sensations
- When operating the unit, play in a well-lit room and keep a safe distance from the TV screen.
- Avoid prolonged use of the console. Take a break of about 15 minutes during every hour of play.
- Do not use the console when you are tired or short of sleep.
- Listening to sound continuously for a long time with a high volume may adversely affect the ears. Be careful especially when using headphones. Adjust the volume so that surrounding sounds can be heard.
- Do not let any young children or toddlers operate the Super Retro-Cade console without supervision.

PACKAGE CONTENTS

- Retro-Bit Super Retro-Cade Console

Hooking up your Super Retro-Cade Console

Connecting the AV cable

1. Connect one end of the supplied AV cable into the Super Retro-Cade Console AV port located on the back of the console:
   a. Red & white into the (L R) sockets
   b. Yellow into the (V) socket
2. Plug the other end into the signal input ports on the TV set, also matching the colors indicated.

Connecting the HDMI® cable

3. Connect one end of the supplied HDMI® cable into the Super Retro-Cade Console HDMI® port located on the back of the console:
4. Plug the other end into the signal input port on the TV set.

Connecting the Super Retro-Cade Console to the AC Adapter

- Plug the DC end of supplied power adapter into the DC socket on back of the Super Retro-Cade Console
- Plug the other end of the power adapter into wall outlet

Precautions on Using the Super Retro-Cade Adapter

- *Use ONLY the Super Retro-Cade AC Adapter included.*
- *Using a different AC adapter may damage your Super Retro-Cade Console.*
- *When not in use, unplug the AC adapter from the electrical outlet.*
- *Do not leave the system or any of its parts in direct sunlight, in damp areas or near a heater*
- *Do not disassemble the console or any of its parts.*

Setting the TV Channel

1. Make sure the Audio/Video or HDMI® Cable is connected correctly.
2. Select the Audio/Video or HDMI® Input setting on your TV, monitor, VCR or DVD player.

Operating your Super Retro-Cade Console

1. Make sure the power is “Off”
2. Plug your Super Retro-Cade Controllers into the respective Controller Slots on the front of the console.
3. To turn the power on, press down on the power button located on the top of the console until you hear a click sound.

Troubleshooting

PROBLEM	SOLUTION
Console is not turning on.	• Is the AC adapter properly connected to the console? • Is the AC adapter connected to a working power source? • Press the Power button down until you hear or feel it click.
No picture on the screen.	• Is the TV turned on? • Is the HDMI® cable connected properly to the TV and console? • Is the AV cable connected to the correct Input on the TV? • Do you have both AV and HDMI® cables connected? If so switch the TV input/channel from AV to HDMI®. • Is the console turned on? • Disconnected all cables from the console and TV, and then reconnect the cables.
Not getting any sound.	• Is the TV volume too low or on mute? • Is the Consoles' Game Volume turned up or down? • Did you verify that the left and right audio cables are connected to the same input section as your video cable?
The picture looks Blurry, Pixelated or stretched out.	• Do you have the screen size set to full screen? Go into Game Settings, select Screen Size, and select Original Size.
The controller is not working.	• Is the controller properly connected to the console? • Is the controller connected to the player 1 port? • With the controller connected to the player 1 port, turn the console off, wait 15 to 20 secs and turn the console ON.

PROBLEM	SOLUTION
The Games do not want to load.	• Turn the console off, Disconnected the AC adapter, Wait 15 to 20 seconds, Reconnect the AC adapter, turn the console ON and load a game. • **Only do this step if the above did not work:** Go into the console Settings, Select Advanced, Select Reset Default Settings, Select YES.
Can't save to the SD Card	• Verify the SD card is not locked • Is the SD card Full? ◊ Try a different SD Card
